Work Experience

Associate Software Engineer - DevOps

Oct 2023 - Present

RecruitCRM, Pune, Maharashtra

- Engineered a fully automated environment provisioning system with 20+ services, enabling spin-up in under 10 minutes and improving testing efficiency.
- Implemented Jenkins master-slave architecture on Kubernetes and integrated Selenium Keda Grid for scalable UI test execution, accelerating QA cycles.
- Successfully led migration of the company's first microservice from EC2 to Kubernetes, achieving rapid scaling of new pods/servers in under 5 seconds and improving system responsiveness.
- Managed EKS clusters with performance tuning using Karpenter, ArgoCD, Robusta's KRR and SOPS for GitOps deployments and secure secret management.

Python, AWS and DevOps Intern

Aug 2022 - Aug 2023

Technical Hub, Surampalem, Andhra Pradesh

- Contributed to AWS infrastructure setup across various services and implemented Python-based automation that reduced repetitive manual tasks.
- Gained hands-on experience with DevOps tools such as Git, Terraform, Jenkins, Docker, Kubernetes, and Ansible, delivering automations that saved hours of manual effort.
- Mentored junior team members, guiding them through debugging and DevOps practices, which improved their problem-solving skills.

Education

Bachelor of Technology in Electronics and Communication Engineering

April 2024

Aditya College of Engineering, Surampalem, Andhra Pradesh

- Relevant Coursework: Electronics, Communication Systems, Data Structures and Algorithms.

Skills

Python, C++, Java, JavaScript, Bash, PowerShell, Groovy, YAML, AWS, Docker, Kubernetes, Linux, AWS SDK, Terraform, Ansible, Packer, Jenkins, ArgoCD, LGTM, ELK Stack, Data Structures and Algorithms, OOP, Operating Systems, Networking, Agile Methodology, Cloud Computing.
