

Emily Chen

emily.chen@gmail.com | +1 650 555 0198 | Austin, TX, USA

AVAILABILITY & PREFERENCES

I am pursuing Full-time roles where I can commit fully to one team. I am flexible across On-site and Hybrid setups depending on team needs. I would consider relocating for the right long-term opportunity if the role and team are a strong fit.

When scheduling recruiter or hiring-manager conversations, during evenings between 6pm and 8pm tends to work best on my calendar.

Passionate about building intuitive consumer products; seeking a senior UX designer role at a company where design drives product decisions.

My primary professional credential stays valid through 2025-12-15, and I am targeting total annual compensation around 95000 for the next step in my career.

If my main line is unavailable, you can also reach me at +1 650 555 0231 or emily.chen.design@gmail.com. A wider collection of work and references lives at <https://www.behance.net/emilychen>.
