AVAILABILITY & PREFERENCES

I am pursuing Full-time roles where I can commit fully to one team. I am flexible across Hybrid and Client-site setups depending on team needs. I plan to remain in my current location and am not seeking a relocation package at this time.

When scheduling recruiter or hiring-manager conversations, during Tuesday and Thursday mornings tends to work best on my calendar.

Aiming for a senior PM role in a B2B SaaS company where I can drive product strategy and lead cross-functional teams through 0-to-1 launches.

My primary professional credential stays valid through 2027-09-30, and I am targeting total annual compensation around 150000 for the next step in my career.
